GUIDELINES FOR POSTER PRESENTATIONS

YOUR PRESENTATION

- Each presenter is provided with a **90cm wide by 170cm** height poster board.
- Posters should be set up between the hours of 08:00h and 08:30h on the day of your presentation.
- Posters must remain up the entire day. Do not remove posters before 18:00h.
- Posters must be removed by 19:30h on the day of your presentation.
- Pushpins and other materials are available at the Conference Registration Desk.

POSTER PREPARATION

Place the title of your paper prominently at the top of the poster board to allow viewers to identify your paper easily. Indicate

- 1) The presentation number of the abstract or paper,
- 2) Title, and
- 3) Author names.

Highlight the authors' names, e-mail, and address information in case the viewer is interested in contacting them for more information.

Prepare all diagrams or charts neatly and legibly beforehand in a size **sufficient to be read at a distance of 2 meters. Paragraph and figure caption text should be AT LEAST 24 point font (0.9 cm height) and headers AT LEAST 36 point font (1.2 cm height)**. Use creativity by using different font sizes and styles, perhaps even color. Use different colors AND textures/symbols (some people are color-blind) for each line or bar contained in your graph or chart. A serif font (e.g. Times) is often easier for reading main text, and a non-serif font (e.g., Arial or Helvetica) for headers and figure labels.

Organize the paper on the poster board so that it is clear, orderly, and self-explanatory. You have complete freedom in displaying your information in figures, tables, text, photographs, etc. The presentation must cover the same material as the abstract. Use squares, rectangles, circles, etc. to group like ideas. **Don't clutter your poster with too much text!** Label different elements as I, II, III; or 1, 2, 3; or A, B, C. This will make it easier for a viewer to easily follow your display.

Include the background of your research followed by results and conclusions. A successful poster presentation depends on how well you convey information to an interested audience.
